EXPERIENCE

MILES PARTNERSHIP

Jul '18 - Present

Web Developer

I'm currently responsible for all aspects of development when it comes to building highly scalable destination marketing websites in Drupal 7, 8 and 9; as well as Vue. All these sites are ADA compliant, cross browser compatible, and leverage many 3rd party APIs.

HARK INC.

Feb '17 - Mar '18

Web Developer

Building interactive, responsive, cutting edge, corporate websites in mainly Drupal and WordPress. Utilizing HTML, SCSS, Javascript, jQuery, PHP, Composer, SSH, and Git. I was responsible for efficiently developing a complete website from a PSD mockup to finished state; while ensuring cross browser compatibility and fast page loads.

MAJORWISE

Sep '16 - Feb '17

Front End Developer

Developing an interactive Job Board / Intern app for colleges. I was solely responsible for building the entire front end on Git utilizing AngularJS, SCSS, Jade/Pug, Node, MongoDB, and Express.

FREELANCE

Jun '16 - Feb '17

Web Developer / Programmer

Designing and developing websites using HTML, CSS, PHP, Javascript, AngularJS, jQuery and sometimes Drupal or WordPress.

BARISTASBEANS.COM

Feb '06 - Oct '16

Web Developer / Owner

Owner/operator of boutique coffee roasting company with wholesale and retail accounts. The eCommerce site is built off of Drupal CMS in a LAMP backend. Administered via SSH.

EDUCATION

FREECODECAMP.COM

Front End Certification

Using HTML5, CSS3, Sass, JavaScript, jQuery, and and GitHub to build fully responsive, interactive websites that stand apart from the usual templates.

LYNDA.COM

Web Design / Development

Best standards and practices using Adobe's design suite & Macromedia Flash.
